Responsive Design

## PROFESSIONAL EXPERIENCE

---

### Drupal Development Intern

2/2020 – 3/2020

Digital Echidna, London, ON

Applied knowledge of progressive development strategies to contribute to architecture of Drupal and backend code solutions. Worked independently to utilize innovative systems analysis and design methodologies to complete assigned tasks.

- Quickly mastered new systems and concepts, increasing my capacity for additional work and thereby furthering my training on more complex subject matter.
- Consistently received accolades from clients who provided positive feedback for my service delivery.

### Junior Web Developer

11/2018 – 8/2019

Northern Commerce, London, ON

Leveraged knowledge of scripting languages to write code in support of eCommerce web development projects. Acted as liaison between development team and client for gathering business and functional specifications and communicating project status reports and updates.

- Specialized in programming, styling, and testing high traffic consumer sites in rapid development environments.
- Championed on-the-job safety as a founding member of Joint Health & Safety Committee with OSHA certification.

### Crew Member

4/2016 – 11/2018

McDonalds Canada, Ingersoll, ON

Greeted customers and listened effectively to orders in order to ensure courteous and quick service. Prepared and served drinks and food in accordance with health codes and restaurant standards. Maintained cleanliness at all times, including cleaning tables, and removing trash. Worked as a Junior JHSC member to ensure procedures were followed and improved.

- Demonstrated extreme attention to detail to ensure top quality production and service to meet customer expectations and engaged customers in a highly visible role, conveying a positive and professional attitude.
